

Unleash the power of influence.

Leader of Leaders

An organization's level of leadership development has a greater impact on their long-term business performance than most other factors.

Leaders need to carry out the mission and vision of the organization and those who are successful play the role of strategic thinker, leader, coach, counselor, motivator, and team player. In the 6-week/3-session Leader of Leaders program we examine the elements of leadership that have proven effective across roles and industries -- creating a strategic vision, critical thinking and decision making, influencing others, and delivering results.

This program includes a leadership skills assessment and executive coaching sessions; two powerful catalysts to becoming the leader you most want to be.

After completing this program, you will:

- Demonstrate a practical understanding of the key drivers of your organization
- Apply strategy to create a sustainable competitive advantage
- Develop people, set direction, inspire, and enhance

One-on-one executive coaching, leadership assessment, and small-group sessions bring immediate solutions and lasting impact to your organization.

WEEK 1: Data and Decisions

Anticipate, Challenge, Interpret
